PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with expertise in Excel, SQL, Python, and Power BI Analyst with hands-on experience on data cleaning, analysis, exploratory data analysis (EDA), visualization and interactive dashboard creation to uncover trends and insights. Proven ability to transform complex datasets into actionable insights to support business decisions. Experienced in performance analysis, reporting, and process improvement with a strong analytical mindset. Pursuing MCA while developing real-world analytics experience as a Data Analytics Intern, supported by strong analytical and problem-solving strengths.

EDUCATION

K.B.Joshi Institute of Information Technology	Pune
Masters in Computer Application(MCA)	2024 – Present
Indira College of Commerce and Science	Pune
BSc(CS) (CGPA: 8.22)	2021 – 2024

TECHNICAL SKILLS

Data Analysis & Reporting: Microsoft Excel (Advanced, Pivot Tables), Power Query, Pandas, NumPy
Data Visualization: Power BI, Matplotlib
Programming: Python (NumPy, Pandas)
Database Systems: MySQL, PostgreSQL
Tools & Environments: GitHub, Jupyter Notebook, Visual Studio Code, Microsoft Power BI

CERTIFICATIONS

Advanced Computer Concepts ([Link](#))
Power BI for Beginners — Simplilearn ([Link](#))
Introduction to MS Excel — Simplilearn ([Link](#))
Introduction to Retrieval Augmented Generation (RAG) — IBM ([Link](#))
Generative AI — Outskill ([Link](#))
Data Analytics Job Simulation — Forage ([Link](#))

PROJECTS

Customer Churn Prediction Analysis | *Python, SQL, MS-Excel, Power BI*

- Analyzed festive season sales data to evaluate revenue growth and high-performing products
- Performed data cleaning and preprocessing using MS Excel to ensure data accuracy and consistency
- Used SQL queries to uncover revenue drivers, top-performing categories, and customer segmentation insights
- Defined Key Performance Indicators (KPIs) such as attendance rate, average scores, and pass percentage
- Developed interactive dashboards in Power BI to monitor student performance and academic trends

EXPERIENCE

Data Analytics Intern	February 2026 – May 2026
CodeC Technologies	
- Analyzed and structured large datasets to improve data quality and usability - Applied Python and SQL to uncover trends and meaningful insights - Designed real-time Power BI dashboards for performance tracking and decision support - Support automation of reporting workflows to enhance accuracy and operational efficiency	
Junior Data Analyst Intern	January 2026 – February 2026
Yuva Intern	
- Collected, cleaned, and validated raw datasets to ensure accuracy and consistency for analysis - Performed exploratory data analysis (EDA) to identify trends, patterns, and anomalies in data - Assisted in preparing structured datasets suitable for analytical and potential AI/ML applications - Assisted in creating interactive and dynamic data visualizations, Dashboards and reports using Power BI - Collaborated with team members to understand data requirements and translate them into actionable insights
